

# Essentials of Infection Prevention in Clinical Settings

22 November 2018

A one day workshop providing up to date information on infection control issues and practices for nurses

**Topics covered include:**

- Principles of infection control
- The role of the infection control nurse
- Staff health
- Waste management
- Policies and programs
- Networking and resources available

**Who should attend?** Registered or enrolled nurses who are beginning practitioners in the field of infection control or who are required to take some infection control responsibilities in the course of their work

The Workshop is equivalent to 6 hours of Continuing Professional Development, as per The College of Nursing CPD Program

**Course Fees including GST: \$190.00**

NSW Health applicants may be able to obtain funding from their LHD HARP Workforce Development Grants Program
