

The ABCs of ARVs: HIV Treatment for Healthcare Workers

26 August to 22 September 2019

Endorsed by  **ASHHNA**
AUSTRALASIAN SEXUAL HEALTH & HIV NURSES ASSOCIATION INC.

A four week interactive, facilitated online course providing an overview of current treatment and related issues in the management of HIV infection and disease

Topics covered include:

- History of HIV treatment
- Antiretroviral therapy regimens: classes, pharmacology, side effects
- Starting and supporting patients on treatment.
- Reading research
- Current issues and new developments.

Who should attend? General practitioners, nurses and other clinical health workers with an interest in HIV treatment. Participants will need a basic knowledge of medical terminology and of medication use in health care. **Note:** This course does not lead to S100 prescriber accreditation, but is suitable for GPs seeking more information about HIV treatment.

Requirements: Participants will need an email address and access to the internet and will be expected to spend approximately 3 hours per week for 4 weeks to complete the course. The course is counted as 1.5 days (or 12 hours) of study. There will be no set time to be on-line. Participants can complete activities at a time that suits them.
