

Essentials of Infection Prevention and Control in Clinical Settings

28 October to 24 November 2019

A four week interactive, facilitated online course providing up to date information on infection prevention and control issues and practices for nurses

Topics covered include:

- Principles of infection control
- The role of the infection control nurse
- Staff health
- Waste management
- Policies and programs
- Accreditation
- Networking and resources available

Who should attend? Registered or enrolled nurses who are beginning practitioners in the field of infection prevention and control or who take some infection control responsibilities in the course of their work.

Requirements: Participants will need an email address and access to the internet and will be expected to spend approximately 3 hours per week for 4 weeks to complete the course. The course is counted as 1.5 days (or 12 hours) of study. There will be no set time to be on-line but participants are expected to log in each week to complete activities at a time that suits them.

Course Fees including GST: \$190.00
